

HEALTH & SAFETY PROGRAM: INTRODUCTION

OVERVIEW

The following Health and Safety Manual has been developed for **Bachly Construction** and applies to;

- **all related companies**

In accordance with **Bachly Construction's "Safety Policy"** and the **Occupational Health and Safety Act**, the following Health and Safety Program has been developed to demonstrate the commitment of **Bachly Construction** in the reduction of not only accidents/injuries but also all loss causing situations, which may be created during the operation of our business. Our health and safety program will help us meet all of the expectations outlined in our health and safety policy statement.

CONTENTS

Bachly Construction Safety Program

This program will be used by various individuals in our operations, to ensure that all employees' and/or subcontractors' health and safety are protected, through:

- Awareness* - of standards established for the workplace by **Bachly Construction**, legislative requirements, and/or Subcontractor policies/procedures for safe work. This awareness will be achieved through appropriate training sessions; employees and/or Subcontractors will be expected to actively participate in workplace health & safety.
- Monitoring* - of workplace conditions, compliance with standards, and use of the Internal Responsibility System.
- Follow-up* - *will be done* to ensure corrective actions for non-compliance and modification of workplace health & safety policies, procedures or programs.

SAFETY PROGRAM MANUAL

The Safety Program Manual is a functional reference book for Health and Safety in the workplace. It contains specific **procedures, documents** and **forms** to be used by the appointed supervisory staff, Joint Health & Safety Committee members and/or construction site management staff.

- Procedures* - identify the PURPOSE, PROCEDURE (for implementing, updating, and accountability of participants), DISTRIBUTION and RECORDS for each program section.
- Documents* - include reference sheets established to support and implement the above procedures.
- Forms* - includes all checklists and reports developed to simplify the procedure.

HEALTH & SAFETY PROGRAM: INTRODUCTION

SUBCONTRACTOR SAFETY PACKAGE

The Subcontractor Safety Package will be used to supplement the existing contract. It establishes the requirements for Subcontractors to ensure that the Occupational Health & Safety Act, Regulation 213/91 and all related workplace safety legislation for construction projects are met and clarified, through site policies, as they may pertain to the project. This Health and Safety manual should be maintained on the project and be readily available for use and review.

PROGRAM SCOPE

This program will address all facets of our operation and apply to all Employees, Subcontractors and Site Management. Taking into consideration that no two workplaces are the same, input and modification may be required to suit site-specific circumstances.

Implementation and maintenance of the Health & Safety Program at **Bachly Construction** will be the responsibility of management, who will work closely with the Joint Health & Safety Committee to ensure that all **Bachly Construction** workplaces (construction projects) are maintained in accordance with the requirements of this program. **The Project Manager, will act as the Health and Safety Coordinator** and oversee implementation and maintenance of the **Bachly Construction Health and Safety Program**.

PROGRAM OBJECTIVES

Although, this program will be workplace specific, the basic objective is to ensure "**Due Diligence**" through the consistent control of loss created by accidents, injury, illness, property damage and incidents. Additional objectives include compliance with increasing legislative requirements, improved Management-Labour relations and to maintain our role of leadership in all areas within our community. These objectives will be obtained through the participation and commitment of all persons involved with this program.

PROGRAM AVAILABILITY

Copies of the Health & Safety Manual will be provided to the owners, operations management staff, the JHSC and the Site Superintendents as applicable. It is imperative that management:

- use the Program Manual to ensure the safety of the workers in the workplace and generate appropriate documentation that demonstrates all pro-active measures taken
- review the Program Manual with the Joint Health & Safety Committee (JHSC) where applicable
- make the Program Manual available to the JHSC members (manual is not to leave the site trailer unless permission has been granted by **Senior Management**)

Resource materials, instruction and assistance during the implementation period will be made available.
